

Dr. Gordon Neufeld **In Ottawa, April 12-14, 2014**

Travelodge Conference Centre
1376 Carling Avenue, Ottawa

*Dr. Neufeld's approach
has the power to
change, if not save, the
lives of our children...*

The National Post

Dr. Neufeld is a highly respected Canadian developmental psychologist with over 40 years experience working with children and those responsible for them as well as twenty years of teaching with the University of British Columbia. A foremost authority on child development, Dr. Neufeld is an international speaker in much demand, a best-selling author, and a theorist widely recognized for his abilities to *make sense* of complex issues.

Restoring Emotional Health in Troubled Children and Youth **A full day presentation for those involved in supporting children and youth**

Monday April 14, 2014 – 9:00 am till 3:00 pm

\$180.00 per person with paid registration before April 6th (\$195.00 after)

There is much focus today on children's emotions. Constructs like emotional intelligence, emotional self-regulation, emotional well-being and social-emotional learning are being bandied about like never before. There is even a new branch of psychology called *positive psychology* with a focus on happiness and how to achieve it. Emotion, long dismissed as a nuisance factor, is now confirmed to be at the core of development and well-being.

What are the implications for those who support children and youth, particularly when working with those who demonstrate emotional or behavioural problems? How do we conceptualize a construct of emotional health and work to restore healthy emotional functioning? How can we best address the emotional roots of such problems as alarm, anxiety, agitation, aggression, addiction, and depression? In this full day presentation, Dr. Neufeld will speak directly to these questions and more from the perspective of the helping and teaching professional.

Heart Matters: What to do with a child's feelings **An afternoon presentation for parents with Dr. Gordon Neufeld**

Saturday April 12, 2014 – 2:00 pm till 4:00 pm

\$40.00 per person and \$60.00 per parenting couple

A child's emotions can be large, loud, and messy! And yet, emotion is now confirmed to be at the core of development and well being. What are the implications for raising children? How can we ensure healthy hearts and what does heart hygiene look like? Should we be discouraging negative emotions and should we be encouraging our children to calm down? What role does the mind play in matters of the heart? Dr. Neufeld will address these questions and more, bringing some needed clarity to the plethora of confusing information that is bombarding parents today.
